

Martek Power selected as Raytheon Preferred Supplier

Torrance, Calif., April 2010 – Martek Power, a worldwide leader in the manufacturing of power supplies and power conversion solutions, announced today that it is now one of only 29 power supply companies that are on Raytheon’s Preferred Supplier List (PSL).

The PSL program brings value to Raytheon and Martek Power “by building world-class performance, technical innovation, and continuous improvement”. Martek Power earned this Preferred Supplier status by demonstrating that it “continuously deliver the best performance and value to Raytheon”. Martek Power is one of a small elite group of suppliers that has maintained the highest standards in Raytheon’s supplier performance-- its quality record has been excellent with an average score of 98%. This PSL status puts Martek Power in a position to work even more closely with Raytheon’s Engineering and Material Acquisition. Martek Power has been a Raytheon power supply vendor for over 20 years and is a recipient of Raytheon’s prestigious 2009 Supplier Excellence 3 Star Award by the Raytheon’s Network Centric Systems Division (NCS).

About Martek Power

Martek Power is a world leader in the design and manufacture of standard, modified-standard, custom power supplies and converters. With design and manufacturing centers in Europe, North America, North Africa, and Asia, Martek Power is uniquely qualified to satisfy customers in worldwide markets with local technical and customer service support. The company has over 45 years’ experience supporting OEMs to engage in medical, networking, telecom, data storage, transportation, computing, aerospace & military, instrumentation, and other industrial applications. They also own two major global providers of test and measurement equipment and calibration and maintenance services - Sefelec in Germany and Semelec in France.
